**ITALIAN FELLOWSHIPS PROGRAMME
FOR TECHNICAL COOPERATION
CAPACITY BUILDING AND HUMAN RESOURCES DEVELOPMENT
2025-2026**

Fellowship Award Specification

**Food and Agriculture Organization of the United Nations (FAO)
Subregional Office for Eastern Africa**

1. General Information

<u>Title:</u>	UN Fellow
<u>Orientation Workshop dates:</u>	May 2026 (tbc)
<u>Assignment in the field dates:</u>	May 2026 – May 2027 (tbc)
<u>Duty Station:</u>	Addis Ababa, Ethiopia
<u>Sector of assignment:</u>	Environment and Natural Resources Management

2. Supervision

<u>Name of the Supervisor:</u>	Ms. Farayi Zimudzi
<u>Title of the Supervisor:</u>	Subregional Coordinator for Eastern Africa a.i.
<u>Name of the Direct Supervisor</u>	Ms. Yuka Irie
<u>Title of the Direct Supervisor:</u>	Natural Resources Officer

3. Background information

The Food and Agriculture Organization of the United Nations (FAO) contributes to the achievement of the 2030 Agenda through the FAO Strategic Framework by supporting the transformation to more efficient, inclusive, resilient and sustainable agrifood systems, for better production, better nutrition, a better environment, and a better life, leaving no one behind. FAO's commitment to environmental sustainability is integral to our strategic objectives and operations.

The FAO Subregional Office for Eastern Africa (SFE) and Representation to the African Union (AU) and United Nations Economic Commission for Africa (UNECA) is a subsidiary of FAO's Regional Office for Africa (RAF). The Office also plays an important liaison role to the African Union (AU) and United Nations Economic Commission for Africa (UNECA) as well as the Regional Economic Communities (RECs) and to pertinent development partners based in Ethiopia and within the subregion.

The SFE supports eight countries (Djibouti, Eritrea, Ethiopia, Kenya, Rwanda, Somalia, South Sudan and Uganda) in the Eastern Africa subregion. It supports subregional policy dialogue on food security, agriculture and rural development issues, facilitates the emergence of subregional partnerships and supports capacity development and resource mobilization for food security, agriculture and rural development in the subregion.

This post is located in the FAO Subregional office for Eastern Africa (SFE) in Addis Ababa, Ethiopia.

4. Duties, responsibilities and output expectations:

Within the framework of the Fellowships Programme for Technical Cooperation Capacity Building and Human Resources Development, the candidate will perform the following duties:

- Assist the Natural Resources Officer and the Better Environment team in project related services to support the delivery of programmes, projects, products and services.
- Provides technical support/analysis to various assessments, studies and initiatives and assists in technical backstopping to field projects.
- Participate in multidisciplinary teams and working groups and collaborate with other divisions/offices and agencies to promote good practices.
- Assist in knowledge sharing and good practices at meetings and conferences.
- Support resource mobilization to expand existing partnerships with donors and other development partners.

5. Qualifications and Experience

Education

Advanced university degree in natural resources with focus on environmental science, water management or natural resource management, forest economics, forest engineering or other field related to natural resources.

Work experience

One year of relevant work experience.

Languages

Fluency in English and limited knowledge of another FAO official language (Arabic, Chinese, French, Russian or Spanish).

Other skills

Knowledge of basic IT skills (Microsoft software or equivalent).

Competencies

Teamwork: Works collaboratively with colleagues to achieve organizational goals.

Communication: Speaks and write clearly and effectively.

Commitment to Continuous Learning: Actively contributes to knowledge sharing and reflects lessons learned.

6. Learning Elements

At the end of the assignment the Fellow will be able to:

- Assist the supervisor and the country offices in the implementation, monitoring and evaluation of programmes.
- Have a better understanding of natural resources management and international development at the UN.
- Draft project proposals for resource mobilization.
- Have a better understanding of climate finance and activities related to climate change and natural resources management.

7. Content and methodology of supervision

Briefing will be conducted at the start of the assignment with the various office units and teams to familiarize them with the work of the subregional office. Specific tasks, responsibilities and work plan will be discussed and agreed with the supervisor. Frequent meetings will be held with the supervisor and the Better Environment team to report on updates, work done, opportunities and any challenges faced. At the end of the assignment, a narrative report on the achievements and recommendations shall be prepared for submission to the supervisor.

8. Living conditions in the country

Ethiopia, located in the Horn of Africa, is one of the oldest nations in the world with a rich history, diverse cultures, and stunning natural landscapes. It is the second most populous country in Africa and remains the only African nation never formally colonized. Known for its unique calendar, ancient traditions, and as the birthplace of coffee, Ethiopia combines deep cultural heritage with rapid modernization, making it a distinctive and dynamic country to live and work in.

Health Care:

Healthcare in Addis Ababa is generally accessible through the UN Health Care Centre and reputable private hospitals, while facilities outside urban areas are limited. For specialized treatment, international staff often rely on private clinics or medical evacuation.

Environment:

The country enjoys a mild highland climate, clean air, and low pollution levels compared to major cities. Seasonal rains may affect road conditions, but the natural scenery is diverse and beautiful.

Safety and Security:

Addis Ababa is relatively stable, though petty theft and pickpocketing can occur in crowded areas. Political stability has improved, and staff are advised to follow UN security guidance.

Infrastructure:

Infrastructure is expanding rapidly with improved roads, taxis, and a light rail system in the capital. Internet and mobile networks are state-run but increasingly reliable.

Social and Cultural Life:

Ethiopia has a vibrant cultural scene with traditional coffee ceremonies, festivals, and music. There are many opportunities for community engagement, dining, and leisure activities.
