<u>Title of the Supervisor:</u>	Deputy Resident Representative
<u>Name of the Direct Supervisor</u>	Dr Hugues Traore
<u>Title of the Direct Supervisor:</u>	Programme Coordinator

3. Background information

The United Nations Development Programme (UNDP) is the global development network of the United Nations system, present in 177 countries to help nations achieve the Sustainable Development Goals. As part of its cooperation framework with the Government of Congo (Country Programme 2021-2025), UNDP is strongly committed to eradicating poverty and significantly reducing inequalities, particularly gender inequalities, and vulnerability, through strategic and targeted support to accelerate inclusive growth ensuring sustainable progress, inclusive governance, sustainable management of natural resources and resilience to climate change. These programmatic priorities, aligned with the priorities set out in the National Development Plan (PND 2022-2026), are structured around three pillars: (i) inclusive

governance, the rule of law and the quality of institutions; (ii) inclusive growth and reduction of inequalities; and (iii) sustainable management of natural resources, adaptation to climate change and resilience.

The lack of basic infrastructure (water, electricity, roads) in rural and peri-urban areas, low economic diversification, the need to strengthen local capacities for planning and project management, as well as vulnerability to ecological shocks and the issue of sustainable management of natural resources must be taken into account to adjust UNDP interventions.

The Fellow in Congo will be deployed to assist and support the organization in cultivating, building and maintaining strategic relationships and alliances that are essential to successfully advance and achieve UNDP's mission through partnership development, resource mobilization and communications. These strategic relationships cover a wide range and number of key groups and development partners, encompassing developing countries, existing and potential donor countries/emerging economic powers, subnational partners, civil society, multilateral and regional institutions, the private sector, foundations, academia and think tanks, the broader United Nations system, intergovernmental bodies, as well as the media. The Fellow holder will notably support UNDP teams to develop partnerships between UNDP and Italy on digital and energy transitions.

4. Duties, responsibilities and output expectations:

Within the framework of the Fellowships Programme for Technical Cooperation Capacity Building and Human Resources Development, the candidate will perform the following duties:

- Integrate new communication technologies and platforms to enhance outreach and impact.
- Conduct research and implement innovative communication approaches (AI-generated storytelling, audience segmentation).

- The fellow, on the other hand is to ensure that they retain
- responsibility and accountability for accomplishing their goals

8. Living conditions in the country

Brazzaville's climate is tropical, with a dry season from June to September and a rainy season from October to May (in which there are two wetter periods in March-April and November-December). from June to August is the coolest time of the year, while from mid-August, even though the rains have not yet started, the temperature begins to rise. The city is the capital of the Republic of Congo and is located 4 degrees south of the equator, at 320 meters (1,050 feet) above sea level. Beyond the Congo River lies Kinshasa, the capital of the Democratic Republic. In Brazzaville, the average temperature of the coldest month (July) is of 74.8 °F, that of the warmest month (April) is of 82.0 °F. Here are the average temperatures.

The security situation in Brazzaville is calm, with the color code Green but petty crime does exist. The national currency is the CFA franc (XAF). Credit cards are accepted by hotels and in some restaurants, pharmacist. The official language is French.

Vaccination against yellow fever is compulsory for entering and staying in the country. Vaccination records are systematically checked on arrival in Congo. Mosquito protection advised. The most widespread religious denominations are Christianity

In general, regular medical facilities are available, with four main hospitals and a significant number of small private clinics. General sanitary and hygiene conditions are adequate.

Communication services (domestic and international) are available on a regular basis. Availability of food, furnishings and other necessities is adequate (various grocery stores and markets with fresh food products and shopping centres, etc.).
