<u>Duty Station:</u>	Amman, Jordan
<u>Sector of assignment:</u>	Programme and Project Risk Management

2. Supervision

<u>Name of the Supervisor:</u>	Ms. Majida Alassaf
<u>Title of the Supervisor:</u>	Deputy Resident Representative
<u>Name of the Direct Supervisor</u>	Ms. Rabia Mukhtar
<u>Title of the Direct Supervisor:</u>	Programme Specialist (RBM)

3. Background information

The United Nations Development Programme (UNDP) is the UN's leading agency working to eradicate poverty, reduce inequalities, and build resilience in communities. Operating in over 170 countries and territories, UNDP supports governments and partners in achieving the Sustainable Development Goals (SDGs) through integrated solutions that address governance, climate change, inclusive economic growth, and crisis response. Leveraging its global network and expertise, UNDP helps advance sustainable development by fostering innovation, strengthening institutional capacities, and driving inclusive partnerships.

UNDP's Country Programme in Jordan aims to enhance the nation's inclusivity and resilience to achieve national priorities aligned with the 2030 Agenda. The Jordan Country Office Programme focuses on key national priorities, including Governance and Peace, Inclusive Growth and Sustainable Livelihoods, Environment, Renewable Energy, Climate Change, Financing for Development, and SDG impact.

UNDP's Social and Environmental Standards (SES) underpin UNDP's commitment to mainstream social and environmental sustainability in all programmes and projects to support sustainable development.

The objectives of the SES are to:

- Strengthen the social and environmental outcomes of Programmes and Projects
- Avoid adverse impacts on people and the environment
- Minimize, mitigate, and manage adverse impacts where avoidance is not possible
- Strengthen UNDP and partner capacities for managing social and environmental risks; and
- Ensure full and effective stakeholder engagement, including through a mechanism to respond to complaints from project-affected people.

To ensure the consistent delivery of high-quality projects and services, Project Quality Assurance is carried out at three stages of each project (Design, Implementation and Closure).

This role will provide support to UNDP Jordan's Central Team for strengthening quality management systems and ensuring compliance with corporate and donor requirements, while fostering an environment of continuous improvement.

4. Duties, responsibilities and output expectations:

Within the framework of the Fellowships Programme for Technical Cooperation Capacity Building and Human Resources Development, the candidate will perform the following duties:

1. Project Quality Assurance (QA) Support

- Assist in maintaining and updating the Project Quality Assurance (QA) checklist to ensure alignment with corporate standards.
- Track the timely submission of project documents (e.g., concept notes, proposals, and reports) for quality assurance reviews.
- Coordinate with relevant teams to address quality assurance findings, ensuring required risk management plans are completed on time.
- Maintain records of QA reviews, ensuring compliance with corporate archiving policies.

2 Social and Environment Screening Support

- Support the preparation and submission of Social and Environmental Screening for projects.
- Liaise with project teams to gather necessary information for completing SES checklists and risk matrices.
- Assist in preparing reports and presentations on the progress of SES assessments and compliance.
- Maintain a repository of all SES-related documents and track their approvals.

3 Other:

- Support other/ad hoc activities as seen relevant and needed to support the office M&E function.

5. Qualifications and Experience

Education

Advanced university degree in Social Sciences, Development Studies, Public Policy, International Relations, Economics, Law, or another relevant field.

Work experience

- At least 6 months of relevant professional or research experience in the areas of governance, human rights, sustainable development, or related thematic fields;
- Demonstrated experience in data analysis, policy research, or programme implementation is an asset;
- Proven ability to work collaboratively in diverse and multidisciplinary teams;
- Strong organizational skills and attention to detail, with ability to manage multiple tasks effectively

Languages

- Fluency in English (both written and spoken) is required;
- Working knowledge of Arabic is an asset

Other skills

- Proficiency in Microsoft Office applications (Word, Excel, PowerPoint, Outlook);
- Familiarity with data visualization tools and/or Enterprise Resource Management Systems (ERPs) is an advantage.

Competencies

- Professionalism: Demonstrates *professional* competence and mastery of subject matter;
- Teamwork: Works collaboratively with colleagues to achieve organizational goals;
- Communication: Speaks and write clearly and effectively)

6. Learning Elements

At the end of the assignment the Fellow will be able to:

- Understand and apply UNDP's Programme and Project Quality Assurance (QA) processes across the project cycle — design, implementation, and closure;
- Gain hands-on experience with UNDP's Social and Environmental Standards (SES), including how to screen, assess, and monitor social and environmental risks in development projects;
- Acquire practical skills in project risk management, including identifying, categorizing, and tracking mitigation measures;
- Strengthen analytical and reporting skills through the preparation of QA summaries, SES checklists, and compliance reports;
- Learn to navigate corporate systems and workflows (e.g., Quantum/ERP, PIMS+, and corporate QA platforms) to track project quality and compliance;
- Contribute to process improvements in quality management systems and understand how UNDP ensures the integrity and sustainability of its development portfolio;
- Enhance coordination, communication, and stakeholder engagement skills through collaboration with multiple programme teams and cross-cutting units;
- Develop a comprehensive understanding of results-based management (RBM) and how quality assurance contributes to achieving credible, accountable, and sustainable development outcomes.

7. Content and methodology of the supervision

The Fellow will work under the direct supervision of the Programme Specialist (RBM) and collaborate closely with Central Team. A detailed workplan outlining tasks and learning goals will be developed at the start of the assignment. Supervision will include regular check-ins, mentoring, and progress reviews, with mid-term and final evaluations to assess learning and performance. The Fellow will also participate in team meetings and learning sessions to strengthen technical and professional competencies.

8. Living conditions in the country

The assignment is based in Amman, Jordan, a safe and welcoming duty station with good living standards. The city offers reliable housing, healthcare, and transportation, though public transport is limited. English is widely spoken, and the climate is Mediterranean with hot summers and mild winters. UNDP staff operate under standard UN security protocols, and Fellows receive a security briefing upon arrival.
