FOR TECHNICAL COOPERATION
CAPACITY BUILDING AND HUMAN RESOURCES DEVELOPMENT
2025-2026**

Fellowship Award Specification

**United Nations Children's Fund UNICEF
Egypt Office**

1. General Information

<u>Title:</u>	UN Fellow
<u>Orientation Workshop dates:</u>	May 2026 (tbc)
<u>Assignment in the field dates:</u>	May 2026 – May 2027 (tbc)
<u>Duty Station:</u>	Egypt, Cairo
<u>Sector of assignment:</u>	Education

2. Supervision

<u>Name of the Supervisor:</u>	Ebtehal Tarek Elghamrawy
<u>Title of the Supervisor:</u>	Education specialist

3. Background information

UNICEF's work in Egypt is focused on promoting sustainable development with multidimensional equity for children, embodying the fair chance for every child principle.

In line with national priorities, the UN Convention on Rights of a Child (UNCRC) and the Sustainable Development Goals (SDGs), UNICEF work in Egypt focuses on, amongst other areas, ensuring all children in Egypt regardless of the situation, receives a high-quality education.

UNICEF Egypt works across several major education areas:

Addressing the learning crisis and working with partners to ensure the universal acquisition of foundational literacy and numeracy.

- Full inclusion of the most marginalized: children with disabilities, out-of-school children, and those vulnerable children at high-risk of dropping out.
- Building on the major investments the Ministry of Education has made in the digital environment in schools, equipping educators, parents and students with the skills and tools to innovate their teaching and learning and making sure they stay safe online. This includes expanding UNICEF's Learning Passport for the most marginalized of learners.
- Strengthen the MOETE's planning, budgeting, and monitoring capabilities, with a specific focus on gender-responsive sector planning at national and subnational levels. UNICEF is now running a series of governorate-level workshops to advance gender equality in and through education, looking at learning, environments, teaching, curriculum materials, and leadership and administration.

4. Duties, responsibilities and output expectations:

Within the framework of the Fellowships Programme for Technical Cooperation Capacity Building and Human Resources Development, the Fellow would support the Education Specialist leading on the Learning and Skilling portfolio focusing on:

- Addressing the Learning Crisis: Support work in relation on Foundational learning (FL) strategy, the FL working group on foundational learning, and the acceleration program with the Ministry of Education and Technical Education (MoETE) and key stakeholders to ensure the universal acquisition of foundational literacy and numeracy, thus enabling children to thrive in subsequent educational stages.
- Quality Early Childhood Education: Collaborating with the MoETE to enhance the accessibility and quality of ECE, which is pivotal in shaping a child's cognitive and social skills from an early age.
- Skills development: coordination and overseeing programmes aimed at equipping youth with relevant skills for the fast-changing work that align with labor market demands (i.e; Digital & AI, STEAM, Green skilling and LSCE) thereby fostering economic growth and reducing unemployment rates, target reach is 80,000 students by 2027

Under the direct supervision of the Output manager of Skilling and Digital, Education Specialist and the technical guidance of the Education Section Chief, the Fellow is accountable to support in the three thematic areas mentioned above, through three key functions:

Support in Strategy Implementation Planning and Development

- Contribute to UNICEF's systems strengthening initiatives with a focus on the Foundational Learning (FL) strategy and working group.
- Assist in developing an investment case and advocacy asks related to foundational learning.
- Collaborate with the Ministry of Education and Technical Education (MoETE) and key stakeholders to refine strategies addressing the foundational learning crisis.
- Support the planning efforts of the FL working group to ensure a cohesive and effective approach to foundational learning.

Programme Planning, Monitoring, and Evaluation

- Assist in the planning and implementation of learning and skilling programs, as well as related implementation research.
- Prepare, execute, and manage various technical and administrative tasks to facilitate program development.
- Monitor program progress, evaluate outcomes, and compile reporting materials.
- Provide technical support to ensure that the learning and skilling portfolio employs a well-prioritized research, monitoring, and evaluation plan.
- Track and assess UNICEF's distinct contributions to the Country Programme through relevant data and strategic information.

Technical and Operational Support to Programme Implementation

- Offer technical guidance and operational oversight for youth skills development programs aligned with evolving labor market demands.
- Coordinate initiatives in Digital & AI, STEAM, Green Skilling, and Life Skills and Competencies Education (LSCE).
- Aim to equip 80,000 youth with critical skills by 2027, contributing to economic growth and reducing unemployment rates in Egyptian communities.

5. Qualifications and Experience

Education

An advanced university degree in one of the following fields is required: education, psychology, sociology or another relevant technical field.

Work experience

A minimum of one year of professional experience in programme planning, management, and/or research in education is required.

Experience working in a developing country is considered as an asset.

Relevant extra curricula activities on Education and Project management is an asset.

Languages

Fluency in English is required. Knowledge of Arabic is considered as an asset.

Other skills

Data analysis, report writing skills are considered an asset

Competencies

Core Values attributes

- Care
- Respect
- Integrity
- Trust
- Accountability

Core competencies skills

- Thinks and Acts Strategically (2)

- Drives to achieve impactful results (2)
- Manage ambiguity and complexity (2)

Functional Competencies

- Learning and researching (2)
- Planning and organizing (2)

6. Learning Elements

At the end of the assignment, the Fellow will be able to:

- **Draft Strategic Documents:** Develop and contribute to key programmatic documents, including investment cases, advocacy materials, and concept notes related to national education initiatives.
- **Apply Programme Management Skills:** Assist in the complete lifecycle of programme management, including planning, implementation, monitoring, and evaluation of large-scale education and skilling programmes.
- **Conduct Monitoring and Reporting:** Compile and write comprehensive progress reports by monitoring programme outcomes, tracking key indicators, and analyzing data to assess contributions to country programme objectives.
- **Provide Technical and Operational Support:** Offer technical guidance and operational oversight for the implementation of complex youth skills development programmes, particularly in innovative fields like Digital & AI, STEAM, and Green Skilling.
- **Support National Strategy Formulation:** Assist the host country in the formulation and refinement of national education strategies, with a specific focus on foundational learning and early childhood education.
- **Gain In-depth Thematic Knowledge:** Develop a deep understanding of the key challenges and programmatic approaches to addressing the learning crisis, enhancing Early Childhood Education, and aligning youth skills development with labor market demands in the Egyptian context.
- **Understand UN System Operations:** Have a better understanding of UNICEF's role, mandate, and operational framework for supporting national development priorities in line with the Sustainable Development Goals (SDGs).

7. Content and methodology of the supervision

The Fellow will be supported through a structured and comprehensive supervision methodology designed to facilitate a productive and enriching learning experience. The assignment will begin with a one-week intensive onboarding program, which includes introductory meetings with the team, a review of key documents and readings, and relevant online courses to familiarize the fellow with UNICEF's work and office procedures.

Ongoing support and guidance will be provided through a regular cadence of meetings. This includes weekly one-on-one sessions with the direct supervisor to review the work plan, discuss progress, and provide continuous feedback. The fellow will also participate in bi-weekly output meetings to coordinate on team deliverables, as well as monthly section and all-staff meetings to ensure full integration into the team and the wider country office.

For daily task management, communication, and reporting, the fellow will actively use Microsoft Planner and Teams, ensuring transparent and efficient workflow management and clear lines of communication with the supervisor and the team. Supervisor applies servant leadership approach and believes her role is to support her team learn to strive and serve the children of Egypt.

8. Living conditions in the country

Egypt is located on the northeast corner of the African continent. It is bordered by Libya to the west, Sudan to the south, the Red Sea to the east, and the Mediterranean Sea to the north. Egypt has the largest, most densely settled population among the Arab countries. Egypt achieved important progress in child wellbeing and rights over the past two decades, including a strong reduction of child and maternal mortality, high rates of immunization coverage and almost universal access to basic education. Cairo is one of the most prominent cities in the Middle East and North Africa politically and financially. Here are more practical details on living conditions in Cairo:

Accommodation

Cairo offers a wide range of housing options, from modern serviced apartments to traditional homes. Popular neighborhoods for expatriates include Maadi (where UNICEF office is based), known for its green spaces and quiet streets; Zamalek, an affluent area on an island in the Nile with many embassies and cultural centers; and New Cairo, a modern suburb with new developments and amenities. Rent can be affordable compared to Western countries, with furnished apartments readily available for both short and long-term stays.

Transportation

Navigating Cairo can be challenging due to heavy traffic, but there are several options:

- **Ride-Hailing Apps:** Uber and Careem are widely used, reliable, and offer fair pricing, making them a popular choice for both locals and expats.
- **Cairo Metro:** The metro is the fastest and most affordable way to travel, bypassing the city's traffic. It serves most of Cairo and Giza, with designated carriages for women.
- **Taxis:** Traditional black and white taxis are abundant but often do not use meters, so it's best to negotiate the fare beforehand. White and yellow taxis are more modern, air-conditioned, and use meters.
- **Private Drivers:** Many expatriates hire private drivers for daily commutes, which offers convenience and flexibility.

Cost of Living

The cost of living in Egypt is significantly lower than in North America or Europe.

Safety and Security

In general, Egypt is considered safe for expats, particularly in neighborhoods like Maadi, Zamalek, and New Cairo. Violent crime rates are low, but petty crimes like pickpocketing can occur in crowded areas. The biggest safety concern is often the chaotic road traffic. It's advisable to avoid large political gatherings and stay aware of your surroundings.

Health and Medical Facilities

Cairo has high-quality private hospitals and medical facilities with English-speaking staff. It is recommended for expatriates to have international health insurance, as public healthcare may not meet Western standards.
